

Marigold Spa Cover

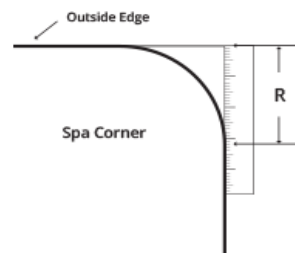

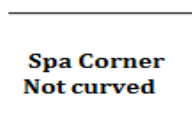

Collect the measurements you need at the Spa location.

(Download or print this).

Take measurements from the outside of the spa rim.
In Metres to two decimal places (eg; 1.95m)

You will need Measurement A and B

Choose the corner style, measure R if it is rounded.

The length of the Skirt from the spa rim (not the cover).....mms

Where are the clips?

Clips can always be re-positioned on the spa. We supply matching lockable clips with every cover.

The distance down from the spa rim (not the cover) to the fixed clips.....mms

How many clips in total.....

Where are they? Describe and measure in from the sides (eg; one in the middle each side; eg; two clips on the long sides 200mm in from the edge, middle clips on the other two sides).

NOTE FOR ALL MEASUREMENTS. We will always get back to you if it doesn't seem right to us. We have patterns for most spa covers.
